

## USAID Climate Change Research & Writing Internship

Project Title	USAID Climate Change Research & Writing Internship
Project Summary	Research and writing to support USAID's Global Climate Change Office to increase climate-relevant knowledge sharing and learning.
Country	United States
Agency	Agency for International Development
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	2

## Project Description

USAID's Global Climate Change Office coordinates and reports on implementation of USAID's Climate Change and Development Strategy. It works with other U.S. government agencies and international organizations, donors, and processes that deal with climate change and development, providing thought leadership to advance climate-resilient, low emissions development.

Climatelinks is USAID's public-facing knowledge portal for climate change & development practitioners. It facilitates information sharing and learning to support climate change objectives across development sectors, within and external to the agency. E3/GCC seeks an intern to support research, writing and analysis related to its knowledge management and learning activities.

Illustrative activities for this internship include the following:

1. Conduct research, compile and summarize information
2. Write blogs and contribute content to [www.climatelinks.org](http://www.climatelinks.org)
3. Research and update country map profiles, other mapping assignments
4. Support social media for [Climatelinks.org](http://Climatelinks.org)
